## **Quickmap Data Download Instructions**

These instruction describe how to update Quickmap data by downloading the update from http://downloads.quickmap.co.nz/URLDownloadHost/downloads/

After you have clicked on the download link provided to you by Custom Software Limited, or pasted the URL into your web browser, a webpage similar to the screenshot below will be displayed. This screen will tell you what you are going to download, and how big the download is.

Click the Download button.

Run the download. Do NOT attempt to run *QDownloader.exe* by right mouse clicking and selecting *Run as administrator.* However it is fine if you have logged in as Administrator.

## Select Run
